VOLANA

WE ARE HERE

Volana n/ (Malagasy) : The Moon

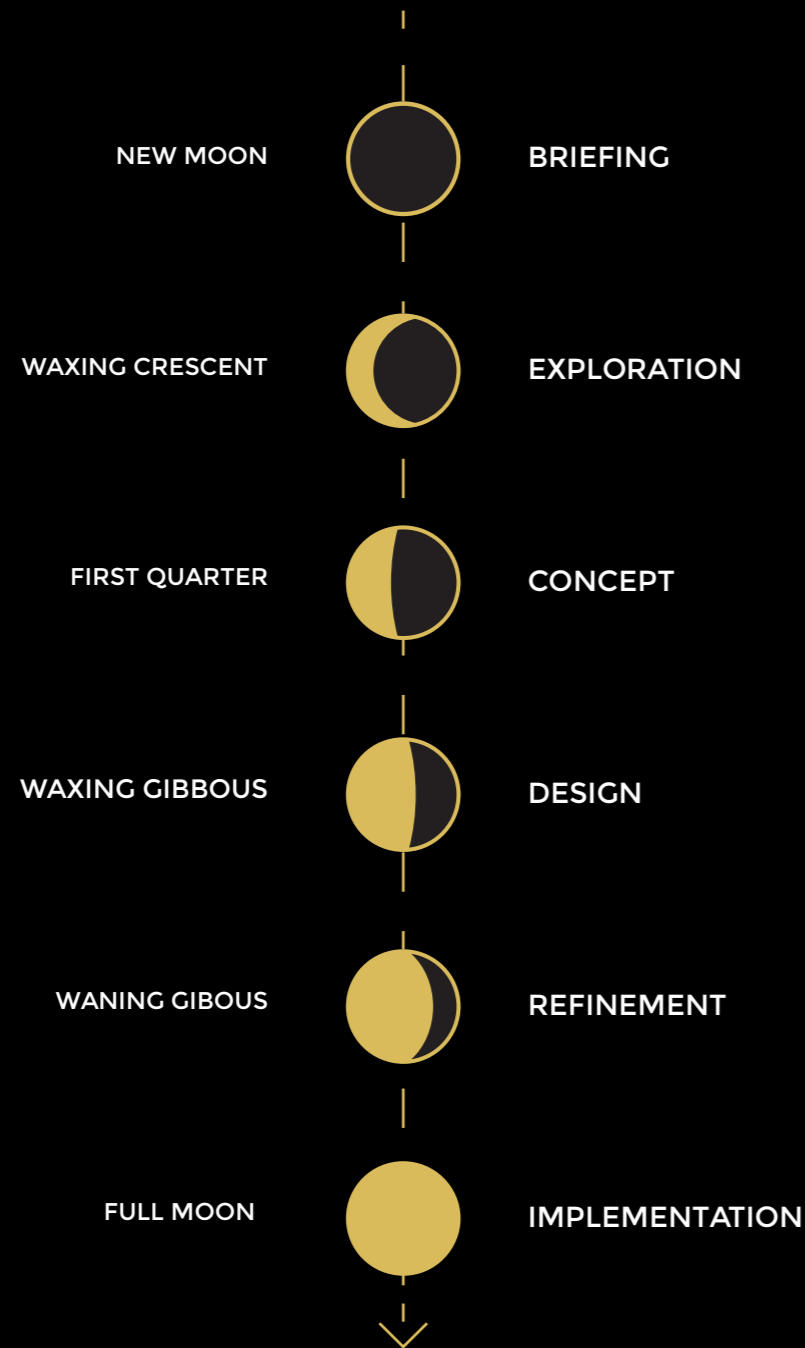

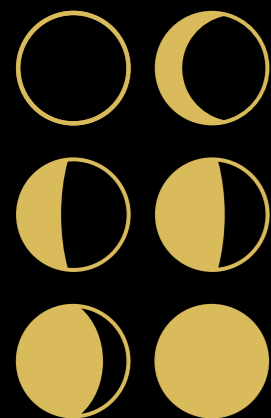

The moon silently makes deep changes in the world, unnoticed, like good design shapes our lives unobtrusively.

Volana is a multidisciplinary design studio based in the heart of Barcelona, specialised in Restaurant and Hotel Design, Branding, Product Design and Marketing. Our team with a global reach and over 60 years of combined experience can unify the latest market trends and our design vision to create a tailor made product for our clients. Our main focus is the food industry, from Hotels, Spa, Restaurants, Stores, Food Trucks and products. We are obsessed with quality and concept, and we keep questioning all around us to be innovative and extraordinary.

We have a passion for solving design problems from overall concept to specific detail—helping clearly communicate the goals of our clients. Creativity is about searching for what is missing, to constantly realign thoughts and expressions to find that moment of insight when everything clicks. At Volana we collaborate intensely, with personal passion and our design disciplines to share our insights with the world.
